

Technology Department Mission Statement

The De Soto School District Technology Department will provide students, staff and administration with the technology and training essential to the safe and successful integration of technology in all aspects of teaching, learning and administration of the District

Technology Department Vision Statement

The De Soto School District Technology Department believes that technology is a resource that enhances the teaching and learning experience by empowering students and teachers. Additionally, technology provides staff the tools needed to efficiently and effectively operate all District administrative and support requirements. It is the vision of the Department to create an environment where students, teachers and staff have safe, secure, and reliable access for all to technology that fosters creativity, critical-thinking and higher learning.
